METAVANTE EXTENDS INTERNATIONAL RELATIONSHIP WITH DSK BANK

MILWAUKEE – Feb. 19, 2008 – Metavante (NYSE:MV), a leading provider of banking and payments technology, today announced that DSK Bank of Bulgaria is extending its core banking relationship with Metavante. DSK Bank is owned by OTP Bank Group, the largest bank in Hungary. With assets of over \$4.55 billion, DSK Bank is now the second largest bank in Bulgaria.

A client since 2000, DSK deploys Bankway International's browser-based bank automation software at its network of over 370 branches located throughout Bulgaria, which is the largest branch network in the country. Bankway software supports DSK in serving its over 4 million customers through the processing of over 8 million deposit and loan accounts. DSK also manages on average nearly 2 million and close to 3 million peak daily transactions.

"DSK Bank is currently amid a transformation program aimed at improving customer service and advancing existing practices," said Violina Marinova, chairperson of the management board and chief executive officer of DSK Bank. "The program has already achieved considerable results and the extension of our relationship with Metavante is confirmation of our confidence in the continued ability to help our business achieve a higher level of service and profitability." As part of its relationship, Metavante and DSK work together on product enhancements and deployment capabilities. Current large-scale collaboration initiatives include enhanced product packaging, intuitive browser capabilities, and flexible fees and service charges.

Bankway International is a comprehensive core banking package that uses a single-system, customer-centric architecture built upon a solid multi-lingual and multi-currency foundation. It offers financial institutions a powerful, secure global core processing solution with the advantage of strategically organized customer service tools. Bankway International software is available as an in-house solution running on multiple hardware platforms, or in a hosted environment.

"Metavante is committed to expanding its business internationally through the provision of scalable and efficient systems that allow large financial institutions to successfully compete in a cutting-edge market," said Donald W. Layden, Jr., president, Metavante International Group. "Metavante is providing key technologies that will enable many aspects of DSK Bank's transformation. We look forward to continuing our relationship with a strongly branded bank that is well recognized within Bulgaria's dynamic banking sector."

(more)

Metavante Banking Solutions offers one of the most comprehensive sets of integrated products and services for financial service providers that are centered on core customer and account management, specializing in deposit, loan and trust accounts. Metavante also provides flexibility in deployment options, including licensed in-house software and a variety of outsourcing or servicing options. Metavante Banking Solutions services both domestic and international financial services market segments and offers core account processing, integrated delivery channels, business and marketing analytics, electronic banking, integrated payments, image, risk and compliance solutions, along with business and technology consulting. Metavante is making significant investments in the future of U.S. banking by bringing global banking characteristics, such as multiple language, multi-currency and continuous processing to its banking solutions.

About DSK Bank

DSK Bank is a \$4.55 billion-asset institution headquartered in Sofia, Bulgaria. Established in 1951 as State Savings Bank, it became a commercial bank under the name DSK Bank in January 1999. The bank was acquired in October 2003 by the OTP Bank Group, which comprises over 70 subsidiaries and associated companies in Hungary and in Central and Eastern Europe. With over 370 branches located throughout Bulgaria, DSK Bank has the widest branch network in the country. For more information, see www.dskbank.bg.
